

MRF HTML5 Map Server Video Inspection Extension

MRF Geosystems

200, 625 – 14th Street NW

Calgary, AB T2N 2A1

1-877-216-5515

sales@mrf.com

www.mrf.com

The Video inspection Extension adds georeferenced videos to the MRF HTML5 Map Server.

-  Use the map to easily find the exact video you are looking for
-  Follow the camera location on the map while the video plays
-  Build a historical inspection video catalogue

Roads

-  Review road conditions
-  Prioritize road maintenance activities
-  Evaluate road maintenance progress

Pipelines

-  Catalogue internal pipe deterioration
-  Identify compromised sections before pipeline failure
-  Coordinate pipeline repairs

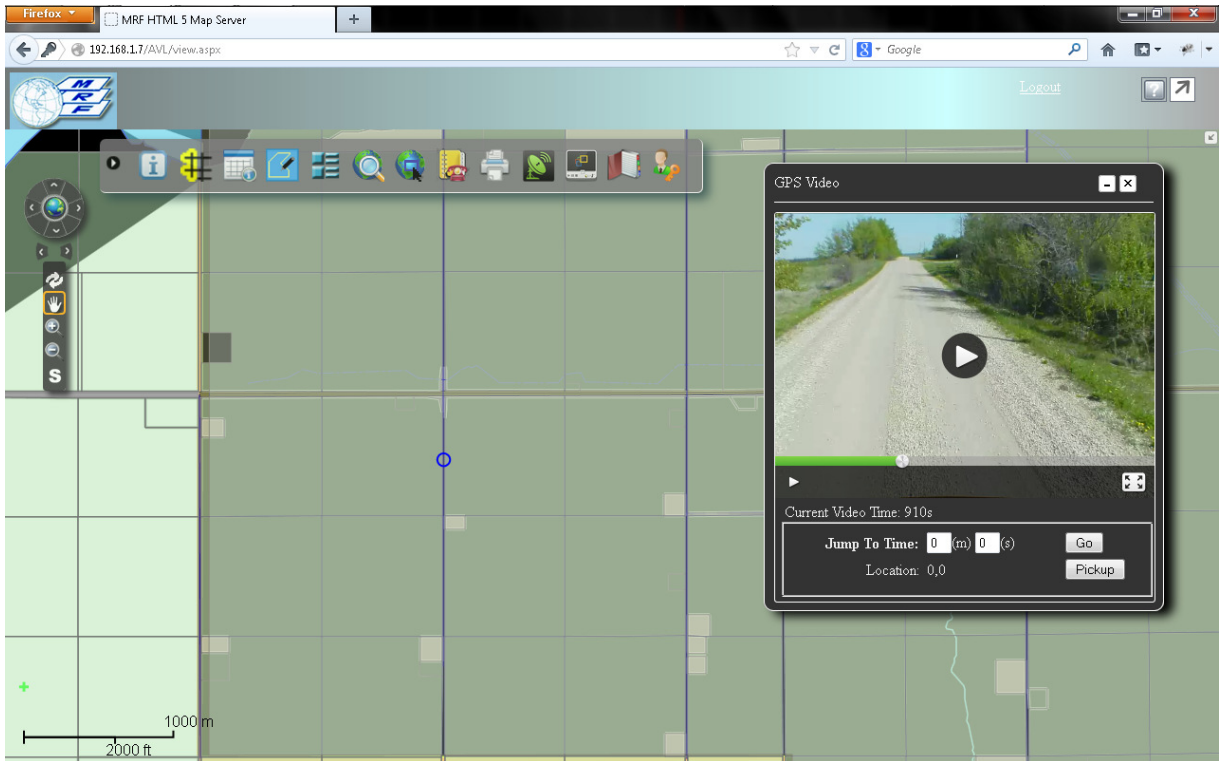

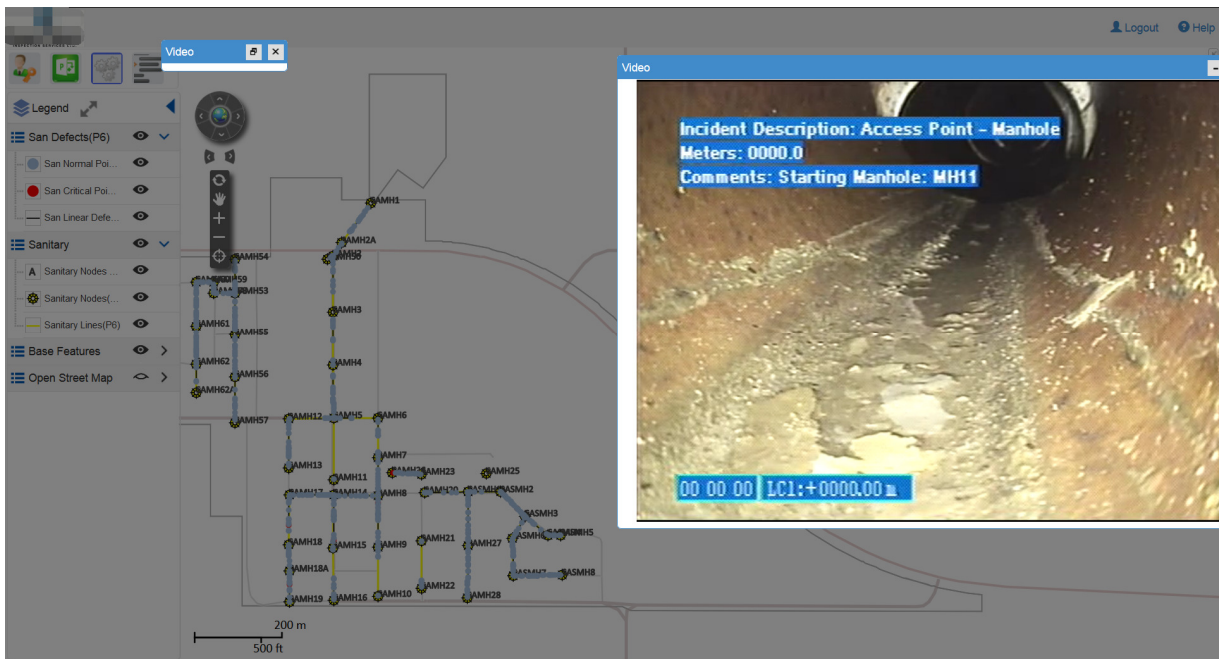

Transmission Lines

-  Review aerial transmission line videos
-  Evaluate transmission tower access road conditions
-  Identify potential environmental impacts (ex. waterfowl flight paths)

About MRF

Founded in 1992, we have helped thousands of organizations solve common to complex workflow, coordination, and information management problems using GIS software and systems integration.

We do this by dedicating ourselves first to understanding the issues you are experiencing and then applying innovative combinations of our comprehensive spatial technologies.
